Dear Walter:

I've been on vacation and returned to find your letter waiting for me. I apologize for not getting the cards back to you earlier, but with final exams and the end of classes, it just slipped my mind.

We have all looked the cards over and agree that as presently constituted they probably do not merit publishing. They lack organization and focus. Reviews are of a very mixed quality, some of which are quite sketchy. It also appears there are two subjects included:

1. school policy and elections
2. local elections generally

My recommendation is that the APSA not publish them, but Rose can do so if you think it worthwhile.

Your newsletter was magnificent. I'm sure you're getting similar comments from elsewhere in the state. You certainly must be given a great deal of credit for getting the organization off the ground.

Financially we're doing pretty well also. Thanks so much.

Sincerely yours,

Robert M. McChesney
